

I am in opposition to the expansion of Low Power FM (LPFM) for the following reasons:

My wife and I are avid listeners of K-LOVE radio and LPFM jeopardizes this service to us and the local community. K-LOVE's message is vital to our community.

There is not another radio provider in this area that provides the type of programming K-LOVE does.

K-LOVE provides the listener a refreshing family friendly experience. It is vital that a community have a radio station that is "SAFE" from the violence of the world for our children and us to listen to. Please do not jeopardize this by introducing LPFM.
